RESEARCH AND OTHER EXTERNAL SUPPORT**:

Current Funding

1. Health Resources and Services Administration (HRSA) Advanced Nursing Education Workforce to Promote Health Equity for All. 4-year project period; 7/1/2023-6/30/2027
Rhoads (PI), Bellflower (Co-I), Reed (Co-I), Sharp (Co-I), Fouquier (Co-I), Clark (Co-I), Anderson (Co-I) & Beasley (Co-I) \$650,000/year
The Advanced Nursing Education Workforce to Promote Health Equity for All will provide stipends and support for 19 DNP students per year (14 NMW, 2 PMHNP, 2 FNP, 1 Dual FNP/PHMNP). The project will also develop a Health Equity Training and Toolkit for DNP students, recruit diverse students for the stipends, and further develop academic-practice partnerships in rural and urban underserved areas.

2. Patient-Centered Outcomes Research Institute [Contract # EASCS-26507]
12/1/2022 – 11/30/2023
Impact of Food Insecurity on Maternal and Child Health
Rhoads, S. (MPI), Martin, M. (MPI) & Johnson, K. (Co-I) (\$100,000)
This Eugene Washington PCORI Engagement Award: Stakeholder convening grant will gather stakeholders to discuss the impact of food insecurity on maternal and child health in urban and rural areas and develop a roadmap for future community engaged research projects.

3. American Heart Association. Mid-South Business Accelerator 3/1/2023- 6/30/2023
Rhoads (PI) \$12,500
Seed funding to implement chronic disease management for families who have a member living with a chronic illness.

4. Health Resources and Services Administration (HRSA) Nurse Education, Practice, Quality and Retention (NEPQR) [UK1HP46070-01-00] 7/1/2022-6/30/2026
Student Training and Education through Partnerships with Underserved Populations for Health Equity and Lifestyle Promotion (STEP UP and HELP)
Dedmon (PI) \$999,999/year (\$3.9 million total)
Rhoads (Co-I, Co-Evaluator, and Telehealth Expert)
This Nurse Education, Practice, Quality, and Retention grant will provide care to two rural counties in West Tennessee (Lake Co. and Lauderdale Co.) using a mobile health unit and will integrate rural health education into undergraduate BSN and graduate DNP programs.

Completed Grant Funding

1. Health Resources and Services Administration (HRSA) Advanced Nursing Education Workforce for Healthy Delta Moms and Babies. [T94HP32894-02] 7/1/2019-6/30/2023
Rhoads (PI), Day (Co-PI), Bellflower (Co-I), Reed (Co-I), Sharp (Co-I), Fouquier (Co-I) \$699,999/year (\$2,799,996 total)
The Advanced Nursing Education Workforce for Healthy Delta Moms and Babies program educates the advanced nurse practitioner workforce to better meet the needs of patients in West Tennessee. The project will also support new and innovative academic practice partnerships (CAB) to educate and support nurse practitioners and nurse midwives who will practice in rural and underserved areas.

2. Patient-Centered Outcomes Research Institute 11/1/2019-6/30/2023
Innovative Care model for Older Adults with Chronic Heart Failure (i-COACH): A comparative effectiveness clinical trial for improving healthcare systems (CAB)
Weber (PI) 3 million to the University of Arkansas for Medical Sciences
Rhoads (Co-I and site-PI) \$235,689 subaward to UTHSC
This research grant will compare the effectiveness of heart failure symptom management using mHealth equipment or standard equipment. Rhoads as Co-I and site PI will work with the UAMS hospital system to determine the best mHealth equipment to use for the study, train staff to use the equipment, facilitate electronic health record and mHealth software portal compatibility, and collaborate with the patient advisory board to implement their guidance on the study protocol, equipment, and deliverables.

3. Patient-Centered Outcomes Research Institute 10/1/2020-6/30/2023
Comparing Quality of Telemedicine & Standard Provider Visits with Healthcare Utilization Metrics of Older Patients with Heart Failure During Covid-19 Pandemic (CAB)
Weber (PI) \$500,000 to the University of Arkansas for Medical Sciences
Rhoads (Co-I and site-PI) \$162,409 to the University of Tennessee Health Science Center
The overall aim of this research study is to determine which type of patient care visit (standard care in-person or telemedicine visit) is most effective, preferred by older adult patients with Heart Failure (HF), and results in the most effective healthcare utilization metrics.

4. Health Resources & Services Administration Office for the Advancement of Telehealth
South Central Telehealth Resource Center Satellite Telehealth Training Center at UTHSC
Rhoads (Site PI)
The satellite training center is housed in the UTHSC College of Nursing Crowe Building will provide telehealth training for health care providers and students.

5. Robert Wood Johnson Foundation \$125,000
Enhancing the Arkansas Birthing Project through Technology
\$125,000 9/1/2016-8/31/2019
Rhoads (PI) Co-PI Eswaran, Co-PI Harris
Using technology to enhance a pregnancy peer mentoring program for Black/African American and Hispanic women in Arkansas. The technology will be used to connect 'Sister Friends', provided enhanced education, and connect with health care team members as needed.

6. American Association of Colleges of Nursing (AACN) \$15,000
All of Us Research Program Information and Education for Underrepresented Memphians
11/1/18-2/28/2019
Rhoads Co-PI, Carroll Co-PI
Coordinating an educational event about the National Institutes of Health's All of Us Research program for residents of Memphis, TN.

7. National Institutes of Health
National Center for Advancing Translational Sciences

Translational Research Institute

9/1/2017-8/31/2018

James, Laura (PI)

Role: **Rhoads** is part of the Leadership team for the Community and Collaboration Core. This function uses a participatory approach to identify public health issues and community concerns, and build functional linkages between academic, health practice and lay communities to stimulate research that improves the health of Arkansas.

8. National Institutes of Health

Data Coordinating & Operations Center for the IDeA State Pediatric Clinical Trial Network

Lee, Jeanette (PI)

\$41,881,887

10/1/2016-9/30/2021

Role: **Co-Investigator Rhoads** leads the professional development for multi-state pediatric research studies as well as lead the development of technology infrastructure for collaborative research studies, which will use technology for data collection and research procedures. Technology will be used to provide telehealth infrastructure as well as provide professional development and research training to researchers and research staff in addition to research participants.

9. Health Resources and Services Administration (HRSA) Advanced Nursing Education

Geriatric Advanced Practice Grant

Beverly, Claudia (PI) Co-Is Lefler, L.; Buron, W.; Harris, M.; **Rhoads, S.**

\$1.9 Million

7/1/2015-6/30/2018

Role: Co-Primary Investigator Rhoads leads the interprofessional education for geriatric nurse practitioner students who are practicing throughout Arkansas. Rhoads also leads the technology innovation pieces, which include virtual site visits from faculty to remote students, mentoring nurse practitioner students related to remote patient monitoring as well as providing technology expertise for the research and program team.

10. Health Resources & Services Administration Office for the Advancement of Telehealth

South Central Telehealth Resource Center

Rhoads (PI & Program Director)

\$975,000

9/1/2010-8/31/2013

refunded 9/1/2013-8/31/2016

refunded 9/1/2016-8/31/2017

refunded 9/1/2018-7/31/2018

Through the South Central Training Resource Center (SCTRC), existing and developing telehealth networks that serve the South's medically underserved, rural populations will gain access to custom-tailored direction and expert-level resources on how to further their clinical and educational reach. Funded since 2010.

11. Gertrude Skelly Charitable Foundation

Angel Eye Expansion for the UAMS Neonatal Intensive Care Unit

Rhoads (PI)

\$27,000

7/1/2016-6/30/2017

Angel Eye- a one-way, real-time video feed broadcasted bedside from the UAMS NICU to a website only accessible to family and selected hospital staff. Bedside cameras will capture real-time audio and video of hospitalized, “micro-preemie” babies as they lie in their isolettes. This funding was used to equip more beds in the UAMS NICU.

12. American Association of College of Nursing/Centers for Disease Control and Prevention
Impact of Academic-Practice Partnership using mHealth Technology on Heart Failure
Benchmarks with Older Adults in Rural and Medically Underserved Areas of Arkansas.

Lefler, L (PI) **Rhoads (Co-I)** Beverly, C & Fontanilla, J.

\$5,000

7/6/2016-3/17/2017

13. UAMS College of Nursing Intramural Grant

Evaluating the Use of mHealth Technology in Patients with Heart Failure.

Buron, B. (PI) **Rhoads (Co-I)**

\$3,600

7/1/2016-6/30/2017

14. Patient-Centered Outcomes Research Institute (PCORI)

Developing and Testing “Best Practices” in Training for Academic/Community Research Partnerships

Williams, Pamela (PI) **Co-Is Rhoads, S.**; McKelvey, K.; Hobbs, C.; Moretz, J.

12/1/2014-11/30/2016

The objective of the grant is to develop training with usability and value to research partners, focusing on unique needs of rare and/or genetic condition patient-partner trainees.

Role: **Co-I Rhoads** is assisting with the development of online educational materials to provide to community and academic partners.

15. Health Resources and Services Administration Office of Rural Health Policy

Greater Delta Alliance (submitting organization)

Health Education for Local Providers (HELP)

Rhoads (PI for CDH Subcontract) \$609,000

8/1/2013-7/31/2016

Evidence-based education to 19 rural counties and health care facilities on Diabetes, Cardiovascular Disease and Obesity.

16. Translational Research Institute

Postpartum Management of the Pregnancy Complicated by Preeclampsia: A Pilot Study Using mHealth Monitoring at Home

\$20,000

Rhoads (PI) Co-PIs Serrano, C., Dajani, N., Magann, E., Eswaran, H.

11/1/2014-10/31/2015

- The pilot study was a prospective observational pilot study with a retrospective chart review to determine the barriers related to mHealth monitoring in postpartum women with hypertensive disorders during pregnancy.
17. Health Resources and Services Administration AIDS Education and Training Center
HIV Health Education, Assessment and Research in Telehealth (HIV HEART)
Rhoads (PI)
\$600,000 1H4AHA24083-01-00
7/1/2012-6/31/2015
Improve access to HIV/AIDS evidence-based, culturally appropriate continuing education and collegial support for rural providers who have limited experience with HIV/AIDS rural patients by using interactive video, online interactive streaming sessions, and online interactive enduring materials, while also providing people living with HIV/AIDS the opportunity to receive co-management of their condition through real-time, live video “virtual clinic” consultations from HIV/ AIDS specialists at our University and their rural provider.
 18. Health Resources and Services Administration Maternal Child Health Bureau (MCHB)
Delta Interactive Solution to Collaborate Over Video for Education and Resources for Maternal Child Health Leadership (DISCOVER)
Rhoads (PI)
\$297,000
07/01/2010-06/30/2013
Develop distance learning curricula fostering MCH leadership, competencies, and evidence-based practices, specifically addressing topics relevant to MCH health professionals practicing in the Delta to include racially, ethnically, and culturally diverse themes.
 19. Gertrude Skelly Foundation
Angel Eye Expansion for the UAMS Neonatal Intensive Care Unit
Rhoads (PI)
\$31,500
3/31/2011-3/30-2012
Angel Eye- a one-way, real-time video feed broadcasted bedside from the UAMS NICU to a website only accessible to family and selected hospital staff. Bedside cameras will capture real-time audio and video of hospitalized, “micro-preemie” babies as they lie in their isolettes. This funding was used to develop and enhance the first generation Angel Eye Camera units.
 20. Connect AR (Awarded Agency)
Arkansas Center for Telehealth
Lowery (PI); **Rhoads (Education Coordinator)**
\$823,081
10/1/2010-9/30/2013
The project focused on 57 counties at 15% or greater poverty level and provide services in: Community Level Needs Assessment, Hands-on Training and Outreach, Website Development, Public Awareness Campaign, and Technical Support.
 21. National Children’s Study (NIH/NICHHD)
Hobbs (PI); **Rhoads (Telehealth Facilitator)**

\$14,474,966

9/26/2008 - 9/25/2013

The National Children's Study will examine the effects of the environment, as broadly defined to include factors such as air, water, diet, sound, family dynamics, community and cultural influences, and genetics on the growth, development, and health of children across the United States, following them from before birth until age 21 yrs.

22. Innovation Grant – Area Health Education Centers (AHEC)
Preventing Alcohol-Exposed Pregnancies: Brief Intervention via Telemedicine in Primary Care Setting (AHEC)
Mengel (PI) **Rhoads (Co-Investigator)**
\$75,000
2009-2010
23. Internally funded through the UAMS Department of OB/GYN

Appendix B
Community Engaged Research - Contributions to Science and Impact

Over the past 15+ years, my research studies have been firmly grounded in rural communities and telemedicine (TM). As a researcher, clinician, and educator, I emphasize the need for multidisciplinary (Team Science) research in partnership with the community. Many of my research and project grants have been located in rural (Rural Urban Continuum Code ≥ 4) Arkansas (AR), Tennessee (TN), and Mississippi (MS) using telemedicine (TM). I partner with communities to understand and identify their needs to collaboratively develop research studies and implement telemedicine technologies in the most rural areas. I have formed over 10 Community Advisory Boards (CAB) for research studies and program grants. Current and previous CABs are noted below (CAB, TM). In July 2019, I received a federal grant [T94HP32894-02-00] to assist with nurse practitioner education and placement upon graduation in rural and underserved areas in AR, TN, and MS. This grant further builds academic-practice partnerships with health systems, rural clinics, and rural health care providers (current CAB, TM). I am currently the site PI and Co-Investigator for a Patient Centered Outcomes Research Institute (PCORI) funded study – Comparing In-person and Telemedicine Visits in Older Adults living with Heart Failure [PCORI/IHS-2018C3-14770] (current CAB, TM, Team Science). I have a long-standing history of multidisciplinary collaboration in education, research, and practice beginning with my role as Director of Education for the Center of Rural Health at the University of Arkansas for Medical Sciences. I have been the primary investigator on multiple grants related to rural and distance education and the use of TM to decrease health care access and research participation barriers. I was the Primary Investigator for 8 years with the South Central Telehealth Resource Center (CAB, TM, Team Science), which facilitates TM education to providers and consumers in Arkansas, Mississippi, and Tennessee, and I received a subaward for a satellite telehealth training center at UTHSC [GA5RH37458-01-00] (TM, Team Science). Co-authors listed in the citations with an * are current or former proteges, and community partner co-authors are indicated with a +.

Implementation of Evidence-based Practice through Innovation (Selected)

- High-fidelity Interprofessional Simulations on-site at rural hospitals throughout Arkansas
- Maternal/Infant Case Conferences broadcast to rural facilities in Arkansas through interactive video and webinar since 2007
- Interactive modules for pregnant women related to health topics in pregnancy and after birth which is housed on www.patientslearn.org
- Community based partnership to provide social support for pregnant women of color in Arkansas – The Arkansas Birthing Project

Connected Health – Contributions to Science and Impact

Connected Health also known as telehealth, telemedicine and mHealth technology can be an invaluable resource in healthcare. Many technologies are implemented without assessing the impact on the medical and nursing staff, the patient perspective, and the impact on outcomes. I strive to assess the impact of telehealth technologies prior to implementation. I was the lead on the research studies that improved the neonatal intensive care unit virtual visiting web-site and hardware design which is called Angel Eye Cameras. My research studies related to technology assessed the impact on both the hospital staff and the patient or lay user perspective. As a part of my telehealth research initiatives, I also examine the best way to enhance provider practice.

Patient and Family Centered care can be facilitated through technology. I believe health care providers should always keep the care of the patient and the family forefront in clinical care and when conducting research. Technology does not have to be a barrier. In fact, when used correctly, it can enhance communication and improve the quality of care for patients and families. As a nurse and nurse practitioner, I have worked closely with patients and their families to collaborate with their care. I was previously a Co-I on a Patient Centered Outcomes Research study. Through this study, we will develop educational materials for the public related to health care and research. My web-camera research studies in the neonatal intensive care unit (NICU) were conducted with parents as well as nurses to improve the system and create a positive experience for both the families and the NICU staff.

Connected Health Grants (Selected)

1. Satellite Telehealth Training Center for the South Central Telehealth Resource Center. The TTC is located in the newly remodeled UTHSC College of Nursing Crowe Building and has state-of-the-art telehealth and video-conferencing technologies for training and educational purposes. The TTC will officially open the Fall of 2021.
2. South Central Telehealth Resource Center is one of 14 telehealth resource centers funded through the Health Resources and Services Administration's Office of Rural Health Policy (Office for Advancement for Telehealth) I have been the Primary Investigator for this grant since it was initially funded in 2010. I lead a team to provide education, technical assistance and resources related to telehealth and connected health in Arkansas, Tennessee and Mississippi. We also provide national assistance as well when requested. Learntelehealth.org **Rhoads PI (2010-2018)**

Connected Health Presentations (Selected)

As a leader in the telehealth field, I have been asked to present on the local, regional and national level. Below is a list of national organizations where I have either given an invited or peer reviewed presentation.
